

A deposit is being tendered by the applicant, who agrees: (i) to furnish at his/her expense a suitable meter box and to use diligence to protect the same from frost and accident; (ii) to comply with all rules and regulations adopted by the Springdale Water and Sewer Commission d/b/a Springdale Water Utilities and the ordinances of the City of Springdale; (iii) that Springdale Water Utilities may terminate service for failure to pay amounts due to Springdale Water Utilities, whether it is for water, sewer, or any amount Springdale Water Utilities may be collecting for other services pursuant to contract, including solid waste or garbage pickup; and, (iv) that this deposit may be applied to any outstanding amounts owed by applicant to Springdale Water Utilities for water and sewer service provided to applicant. For meters being used for construction use, the undersigned is fully aware that all construction on premises covered by this application shall conform to all ordinances, building codes, rules and regulations adopted by the City of Springdale or Springdale Water Utilities, governing construction of buildings and structures within the limits of Springdale or its planning jurisdiction. Springdale Water Utilities shall refund in full a deposit for meters used for construction upon request of depositor or his authorized representative when the following conditions have been met: 1) compliance with all City of Springdale regulations, and presentation to the department's cashier evidence of the City Building Inspector's approval of construction; 2) presentation of depositor's copy of this application; 3) discontinuance of the temporary water service; and 4) payment of the account in full. Deposit shall be retained in escrow without interest by Springdale Water Utilities. Springdale Water Utilities shall apply deposit to any outstanding balance and will return balance of deposit herewith, when service is discontinued and all rules and regulations have been fully complied with.
